

## **Juhu Creative Garden: A Community in Motion**

Juhu Creative Garden is a flagship community initiative of the Dalal Family Foundation in Mumbai, India. Over the past decade, it has been thoughtfully nurtured into a vibrant green space that promotes healthy living, recreation, and meaningful community connections across 14 surrounding residential societies.

Today, the garden stands as a lively hub in the Juhu neighborhood, welcoming people of all ages who regularly use its facilities and contribute to its energetic and inclusive atmosphere.

The garden offers a wide range of amenities and activities, including a children's play area, badminton and cricket courts, yoga sessions, a walking track, and a newly added pickleball court. Together, these create a space where individuals can stay active, unwind, and connect with one another.

Beyond recreation, Juhu Creative Garden also serves as a center for community celebration. Festivals such as Republic Day and Holi are joyfully observed here, bringing residents together and strengthening bonds through shared traditions and experiences.
